

National Indian Students and Alumni Union (UK)

ADVISORY

13 September 2019

We are delighted that the 2-year post study work visa will be reinstated in the U.K.

We are aware of the confusion amongst Indian and the wider international student community around the eligibility of the visa. From the information available so far it appears that students who are graduating in 2019 or commencing their studies before September 2020 are not in scope of the revised rules.

We have sought clarification from authorities on this apparent situation. Once we have ascertained the true nature of eligibility, we will be raising any concerns with authorities through appropriate forums.

Indian and International students are advised to await further official announcements regarding details.
